## 1. The work

Your SPACE by Lucie is organizing and decluttering service, provided by Lucie Krobova or Your SPACE trained organizer Christina Vyas (further referred as “we”) under the Dutch Chamber of Commerce number 73991228.

The work is always done with a client (further used as “you”) and executed at the location of your need.

**On-site work** consists of project consulting, hands-on decluttering, space and schedule organizing, storage planning and installation, or other activity that leads to the desired outcome at your location.

Your participation and cooperation are required for achieving our desired project goal. Our work is therefore predominantly done in your presence and in a form of teamwork. It is therefore not possible for us to estimate the exact number of sessions or hours needed to achieve your goal before we get to know how fast we can be moving through the project together.

It is possible in pre-agreed scenarios, that the organizer will work independently without your presence. However, that will impact the work’s speed which needs to be considered when estimating number of work sessions.

A starting number of sessions are offered in your project proposal. This number is a time estimate for your project that does not guarantee full completion of the set goal. After we start working together, we will have a better picture of your situation, and agree on additional sessions as needed.

Expect to receive in-between-sessions homework assignments that will reflect the complexity of the project and ensure, time is used efficiently. Homework assignments also give clients the confidence to work independently, making the project sustainable and maintainable for the future.

**Off-site work** is any work that is done towards completing your project outside of the main location. That includes shopping, researching, online consulting, clutter disposal, etc. Such work is complementary to on-site work, and if done outside of the session, it is subject to extra costs.

## 2. Session times, rates, travel fees and invoicing

### SESSION TIMINGS

- A **full session** covers 6hrs of work in one working day. Expect additional time in your house (30-60min) which allows everyone to eat or recharge as needed during the session.
- A **half session** covers 3hrs, and needs little additional time.
- A **double session** refers to a full-day session where two organizers are present at the same time. Such sessions are offered for big scope projects.

Occasionally, organizing projects may take more time than originally foreseen. In the unlikely event that we need to work beyond the agreed timeframe, we allow for a free buffer of 15mins after which we start counting **overtime charge (hourly rate)**. We value transparency and will always discuss any potential overtime with you before proceeding.
